ABOUT US

/ QUALITY

We take client satisfaction seriously. ABL has implemented systems and standards, including a unique vetting process designed to create a global network of quality law firms you can trust. Each member inducted into our organization has been accepted because of their ability to meet our rigorous client service standards and provide top-notch value to clients. In conjunction with our stringent vetting process, ABL also relies on direct feedback from both firms and clients to assess member firm quality. Utilizing this assessment framework, ABL can remove any firm that fails to meet organizational standards or client expectations.

/ ONE-STOP SHOP

Through ABL's close cooperation with Integra International, a global network of accountancy firms, auditors, and tax consultants, members can offer their clients a real one-stop shop in support of their international endeavors.

ABL is a dynamic global association of leading independent business law firms that is expanding throughout the world. With 51 member firms, ABL provides clients with access to creative and entrepreneurial legal advice from over 900 lawyers worldwide.

/ COST-EFFECTIVE GLOBAL SOLUTIONS

ABL's unique organizational structure offers a cost effective alternative to traditional global law firm models. Our member firms are able to provide better value to clients worldwide because of their freedom to independently set their own rates, based on what is appropriate and competitive in their location. By adopting this decentralized and locally-based rate structure, ABL believes its member firms can maximize the value provided to clients based on their legal services budget. Additionally, ABL is open to alternative fee arrangements which may provide greater risk mitigation and fee certainty.

/ HISTORY OF ENDURING RELATIONSHIPS

ABL was established in 2001 following a merger between Integra Legal International and Druces International. Since the merger, the organization has experienced substantial membership growth and we continue to attract, and induct, member firms worldwide. Through decades of combined legal service, our member firms have formed deep and enduring relationships. Our organization serves as an efficient conduit through which clients can leverage these relationships, and thereby access a robust and capable network of lawyers.
